- Game Design & Development

Language

Amharic

English

Experience

○ 2021

Self-Employed

Freelance Software Developer

- Worked with various clients developing prototype websites and apps using web technologies and Flutter.
- Developed Telegram bots using Node.js
- Developed and maintained a personal website (noelalem.netlify.app) where I wrote articles on tech, programming, cybersecurity and game development

○ 2021-2022

Self-Employed

Freelance Game Developer

- Developed games in Unity Engine and HTML5, implementing game mechanics, physics simulations and multiplayer networking code
- Participated and volunteered in local game jams hosted by ChewataCon & iceAddis
- Developed a racing game for a client in Unity that used procedural generation while acting as a team leader in charge of 3D artists

○ 2023

beu Delivery

Backend Developer

- Maintained already existing PHP/PostgreSQL backend by fixing bugs and adding new features
- Integrated third party APIs from external applications into web platforms
- Maintained codebase integrity by reviewing coworker commits to frontend and backend code
- Worked on re-implementing the already existing backend in C# ASP.NET Core
